KeyTurion - Advanced Monitoring Tool

**All data has been deleted.**

**View clipboard:**

---

KeyTurion is a professional computer monitoring software  
The program tracks actions performed on a given computer, including the text typed in or the visited websites. Monitoring is performed in the background in a non-intrusive manner, hence the comfort of using the device remains unchanged. KeyTurion has been created as a result of perennial experience in the field of computer monitoring.
